Experience

- i-exceed technology solutions private limited | Sept 2021 - Present
SOFTWARE ENGINEER - UI | Full time
 - Worked on more than 4+ UX projects and 8+ UI projects.
 - I have created wireframes, and prototypes for various platforms for new requirements and also a few existing projects.
 - Designed a few screens according to the requirement in Figma and also created a few icons for better usage in the designs.
 - Incorporated and shared creative ideas based on industry trends.
 - Interaction with the clients to gather the requirements.
 - Doing proper research and survey based on the information gathered and analyzed.
 - Produce high-quality code in an iterative fashion and developed code that can be reused in the future.
 - Coordinating with other developers to provide high-quality projects on schedule and cost-effective manner.
- JyeshtaTech World Pvt Ltd | June 2020 - Aug 2021
JUNIOR UI DEVELOPER | Full time
 - I have designed and developed the company's website.
 - Gathered requirements from the clients and used them to create a mockup flowchart.
 - Also, I have been developing a few websites according to the client's needs.
 - Trained a few interns about front-end technologies and designing tools.
 - I used to take the interview for the candidates.
 - Created and maintained the documentation of the projects.
- iKure Techsoft Pvt Ltd, Bangalore
JUNIOR SOFTWARE ENGINEER | Intern
 - I have worked on the designing part of the application.
 - I have also worked on the website backend part of the same project.
 - I have done the documentation of the project.
